SITUATION SUMMARY

Potential Severe Weather – Southeastern California (No Change)

OVERVIEW

Strong and long-lived thunderstorms are expected over northwest Arizona and possibly southeast Nevada and far southeast California Tuesday. Unusually strong winds aloft colliding with deep moisture near the western Arizona border will lead to thunderstorms that may regenerate and train over some areas for at least a few hours at a time. This will increase the threat of flash flooding, particularly for Mohave County Arizona. Eastern parts of Clark and San Bernardino Counties could see similar storm behavior. Isolated severe thunderstorms with damaging winds and large hail will also be possible.

PRIMARY AREAS IMPACTED & TIMING

Eastern Clark (State of Nevada) and San Bernardino Counties:

Confidence LOW-MODERATE

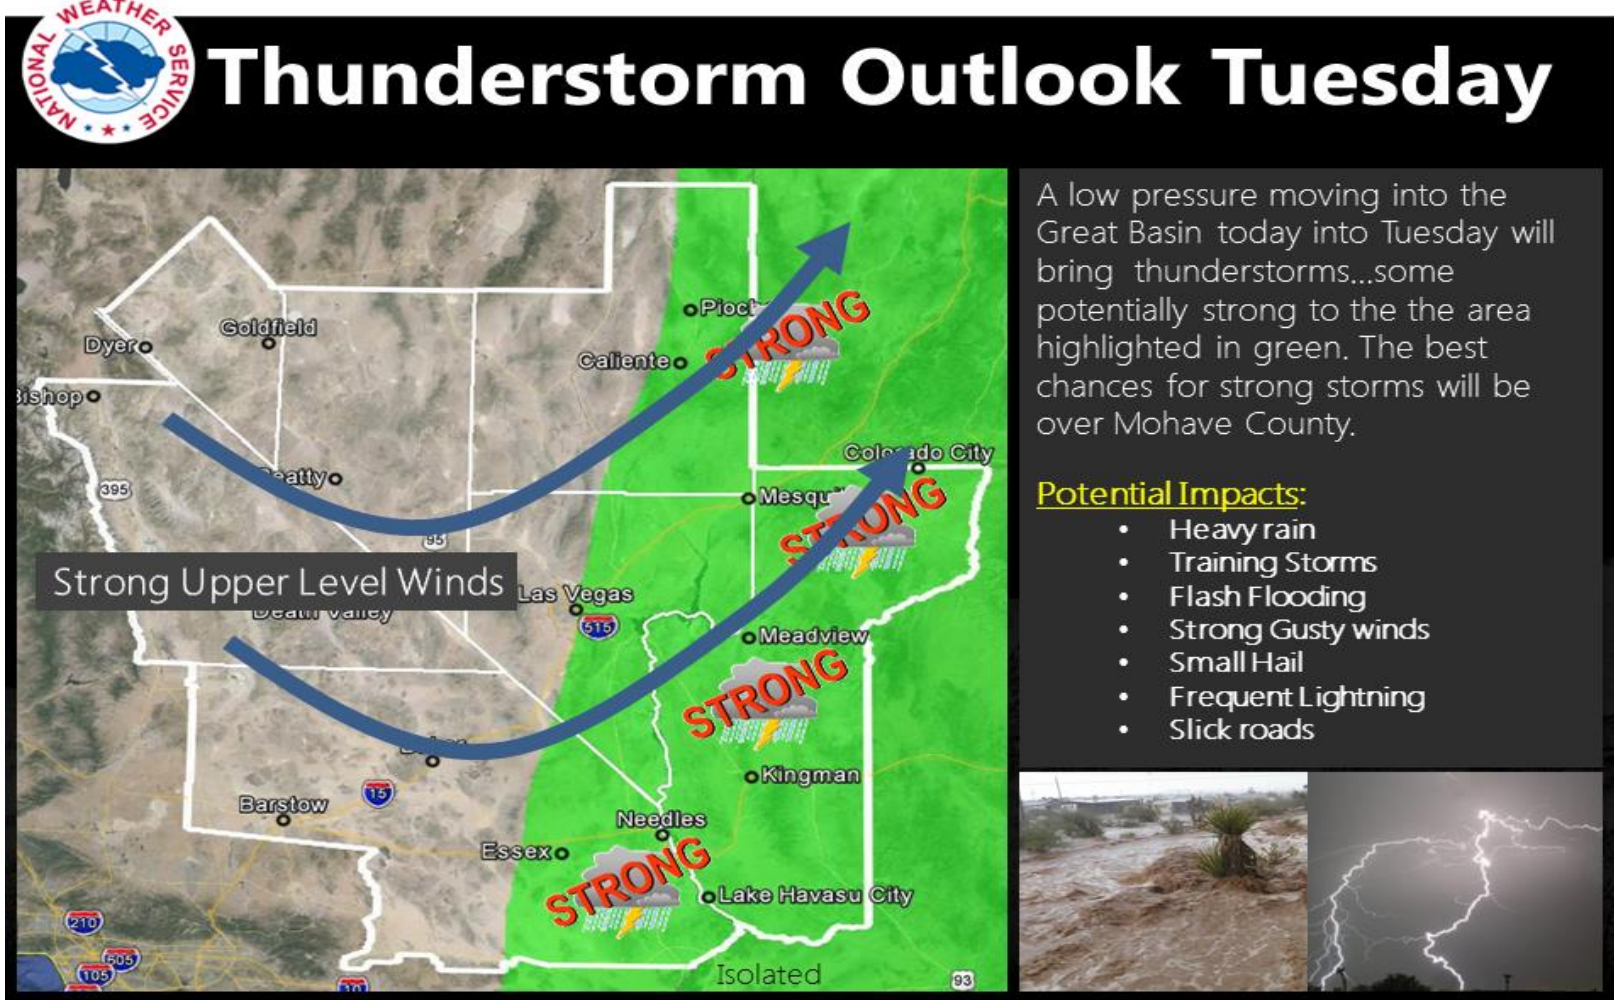

Since the moisture boundary will be hovering near the Arizona border, thunderstorm coverage will be less extensive over Clark and eastern San Bernardino counties. However, if the moisture boundary shifts westward more than currently indicated, the Las Vegas Valley and Spring Mountains could see a better chance of thunderstorms.

IMPACTS

- Potential flash flooding, particularly around burn scars such as Dean Peak.
- Strong & erratic winds with some storm could be damaging and trigger blowing dust.
- Large hail will be possible with a few thunderstorms.

Potential Severe Weather – Southeastern California (Continued)

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION UPDATE:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA. The earthquake nucleated at a depth of 10.8km. The shaking intensity in American Canyon and Napa from the “South Napa Earthquake” was a “VII” on the Modified Mercalli Scale, suggesting very strong shaking occurred in the Napa County area. Ground shaking was felt as far south as Salinas, east to Sacramento, and north to Ukiah. USGS estimates that aftershocks should be expected for the next week.

The Cal OES Earthquake and Tsunami Duty Officer is in contact with the United States Geological Survey and California Geological Survey and will provide updates as new information becomes available.

Area Weather Forecast

Quiet weather is expected across the San Francisco and Monterey Bay Region all work week.

- Currently have a slight chance of rain for the weekend.
- Highs will be in the 60's and 70's at the coast with 80's to mid-90's inland for most cities.
- Friday and Saturday temperatures in the lower 100's are possible for far southern and interior regions.

Access and Functional Needs

- Accessibility for the Points of Distribution (POD) of water and food, including considerations for bus routes, parking, entrances, and restrooms (if open to the public) is a concern. A plan for those that cannot get to the POD and an accessible plan for communicating how to request assistance may be needed.

Damage

County of Napa:

- Per Napa County website, 64 structures have been red tagged.
- **Historic Buildings Damaged:**
 - Sam Kee Laundry
 - Goodman Library
 - Napa County Courthouse
 - Other buildings in the downtown area appear to be severely damaged.
 - Drop boxes for debris will be placed at all public schools.
- The Napa Air Traffic Control Tower is currently not operational due to broken windows and structural damage.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Damage (Cont.)

- The Department of Transportation (DoT) has made \$2 million in Emergency Relief funds available immediately. The funds are to assist with the California Department of Transportation (Caltrans) and local agencies to cover repair costs for roads and bridges damaged by the earthquake.

City of Vallejo:

- Vallejo is conducting building assessments, mostly glass and building facades. Wide spread damage in older part of town, mostly chimneys.
- Cal OES mission tasked 5 civil/structural engineers and 10 building inspectors to Solano County.
- Solano County reported approximately \$650,000 in damages to six (6) buildings.
- City of Napa Mobile Home Parks
 - The City Fire and Red Cross are teaming up and visiting the Mobile Home Parks in the City of Napa to assist residents affected by the earthquake.

Evacuations/Shelters

- American Red Cross shelter: Crosswalk Community Church, located at 2590 First Street, Napa, CA: Population: 9
- Pets can be sheltered at the Napa County Animal Shelter on Hartle Court, Napa, CA.

Health and Medical

- Napa Skilled Nursing Facility is no longer using the generator for power.
- St. Helena Hospital has issued a "Do Not Drink Water" notice for the hospital water system pending bacterial results on 8/25/14.

Railways

- Burlington Northern Santa Fe Freight Railway opened most tracks. No issues reported. Two subdivisions have not yet been opened because they still need to have the bridges inspected.
- CA Northern Railroad – No damage reported. Track inspections are being conducted.
- Sonoma-Marín Area Rail Transit (SMART) – No trains running until at least Tuesday, 8/26/14.
- Napa Valley Railroad: Heavy damage to Napa Station. No trains running until inspections are performed.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Railways (Cont.)

- As of 08/24/14, Amtrak was back to full operation.
- CPUC staff spoke with Summit Signal, the company that maintains signal and crossing appliances for NWP, SMART and the Napa Valley railroads. Crossing testing has been going on but is not 100% complete. Train movement has been cancelled today and tomorrow on all lines. The bridge inspections are ongoing. Power is still out at the Bravo Bridge near Schellville. Track inspection is also on going.

Power and Utilities

Per CUEA:

- 94 customers remain without power as of 1430 hours on 8/25/14.
- No gas issues have been reported but there is gas sniffing equipment surveying the area.
- AT&T moved a Cell On Wheels (COW) and have set up a large mobile charging station in the City of Napa.

Water

- Meyer's Water Company issued a Boil Water Notice (BWN) for 200 residents.
- City of Napa has issued a Boil Water Notice for all residents that lost water completely.
 - Early estimates show that approximately 500 people in Napa are out of water. It will likely take 3-5 days for water to be returned at some locations and an additional 48 hours for bacteriological testing to be completed to lift the precautionary BWN.
 - Water stations are located at:
 - Las Flores Center on Linda Vista Avenue
 - Pearl Street (1 block west of Main)
 - NOTE: They are using hydrants split into 5 valves with potable hose bibs.
- Five (5) water restoration teams were deployed to Napa to assist with the 100+ leaks detected.
- Harvest Middle School in Napa County has a water leak in front of the school and it is currently being repaired.

Schools Status/Closures

- Napa Valley Unified School District – all schools closed on 8/26/14.
- Justin Siena High School in Napa County reopens 8/26/14.
- Unified School District in Contra Costa County- the school year will begin 8/26/14, as planned. The Department of State Architects (DSA) conducted a visual inspection of all four (4) district schools and no conditions were seen that would serve as a basis to not occupy any of the 4 facilities.

SITUATION SUMMARY

M/V PINE GALAXY Maritime Incident (No Change)

08/24/14 at 1615 hours:

A 485 foot chemical tank vessel experienced a maintenance room fire and as a result the vessel has loss of electrical power and propulsion. The vessel is under tow toward San Francisco Bay. Crew: (1) dead - buried at sea. 21 crew members remaining are healthy and secure. Requests to the State of California/Local Government from Unified Command: Cal OES Ports and Harbors ESC: Cal OES Ports and Harbors is the Unified Command's Liaison Officer: Unit consists of City and County of San Francisco (R. Dudgeon) and the Port of San Francisco (S. Sansom) (by phone). Local, Regional, State and Federal Parks, and several marine sanctuaries. San Francisco's EOC is not activated. On Monday the the Liaison Unit will have additional reps from Bay Area Counties. Proposal: The counties may be requested by the Unified Command to staff the Liaison Unit as the vessel nears San Francisco Bay. In addition a recommendation from the Unified Command and Coastal Region (Cal OES) for EOCs to low level activate through county reps in the Liaison Unit. The vessel's cargo is secure. The vessel will be towed to repair facilities in San Francisco. ETA for the vessel is pushed back due to bad weather on the high seas. Better weather forecast for Monday. ETA: Tuesday/Wednesday. The Unified Command remains activated through the INDEX of this incident.

- USCG Sector SF has stood up a Unified Command and Incident Command Post at Sector offices, including a Potential Places of Refuge (PPOR) Unit under Planning. This PPOR unit conducted a Places of Refuge Assessment using the PPOR Tool from the USCG Commandant Instruction 16451.9. PPOR Unit Recommendations are consistent with the proposed tow plan specifying breaking tow and reconfiguring tug placement for bringing vessel to shore (Anchorage 9), shore based operations to inert the cargo and fuel tanks (Pier 80), and final transit to shore to complete vessel repairs (Pier 70). The ship owner's coordination team has arrived from Singapore and participating in the Unified Command.
- One request for Cal OES Ports and Harbors ESC: Cal OES Ports and Harbors is the Unified Command's Liaison Officer: Unit consists of City and County of San Francisco (R. Dudgeon) and the Port of San Francisco (S. Sansom) (by phone) State and Federal Parks, and several marine sanctuaries. San Francisco's EOC is not activated. On Sunday the Liaison Unit may have additional reps. No other requests.

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper level ridge will build over the West Coast today and remain in place through Thursday resulting in higher temperatures and drier conditions across the interior. Temperatures will trend downward towards the end of the week as the ridge moves inland and is replaced by an upper level trough.

San Francisco Weather:

High pressure will build across the region through late week and result in a warming trend, especially across the interior. Aside from typical overnight and early morning low clouds, mostly sunny skies and dry conditions will prevail.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

High pressure rebuilds with a warming trend through the remainder of the week, followed by a weak trough later this week bringing increasing high clouds and cooler temperatures.

Hanford Weather:

Today, the forecast area will have dry conditions with seasonable temperatures as a trough of low pressure moves slowly east of the region. High pressure will rebuild and bring a slight warm up for the second half of the week with continued dry conditions.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Slightly below normal daytime highs are expected again today with a trough of low pressure lingering over the region. A significant warm up is expected for the second half of the week as a ridge of high pressure develops. The high pressure will also result in a shrinking of the marine layer and less night through morning low clouds and fog. A cooling trend is then likely into early next week.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

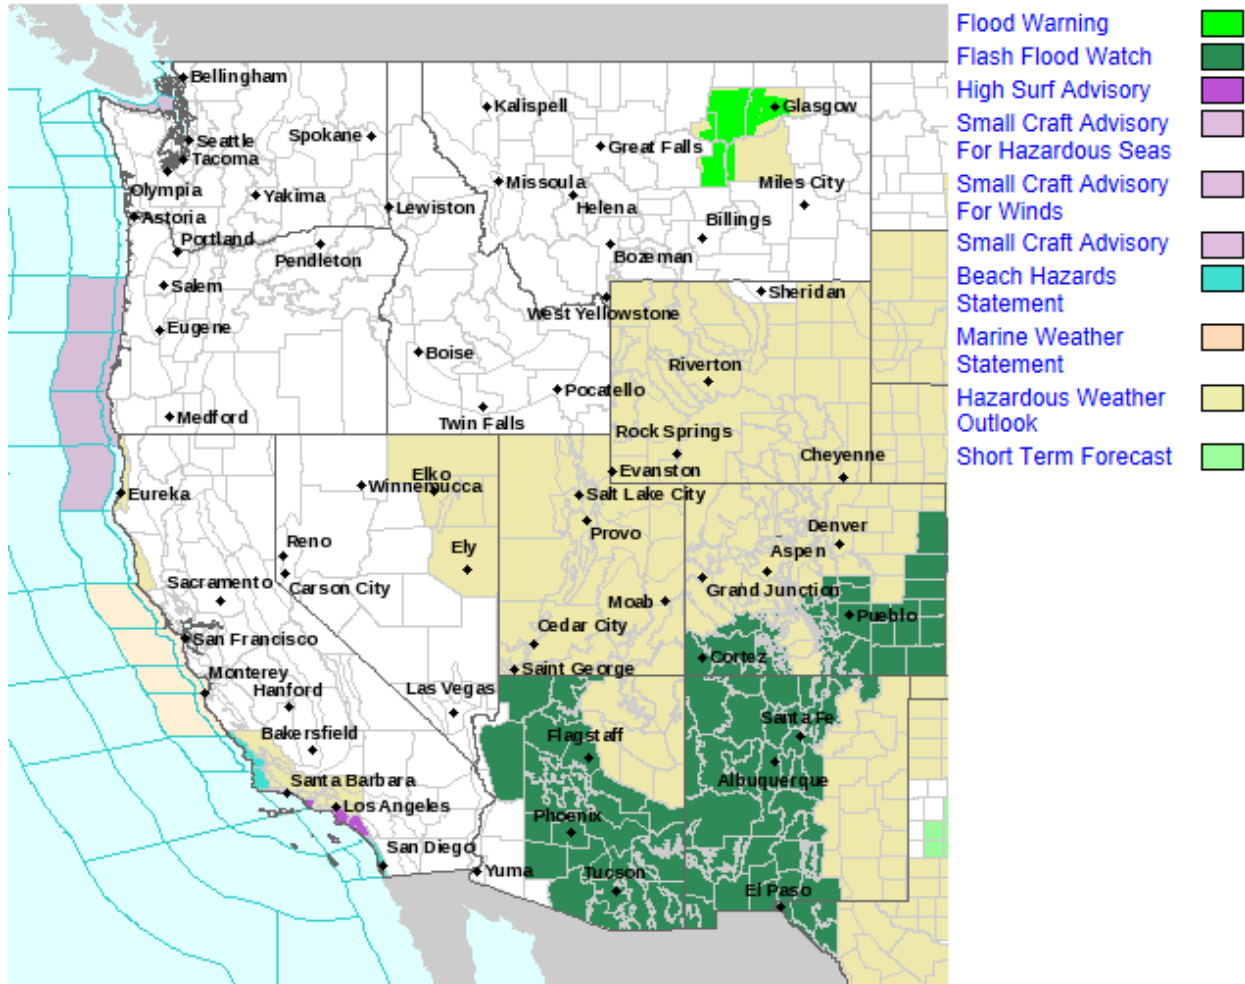

A large south swell generated by Hurricane Marie will bring large, dangerous surf to Orange County and northern San Diego County through Thursday. A low pressure system over the Great Basin will maintain slightly below average high temperatures today, bring some high clouds, and bring gusty west winds to the mountains and deserts during the late afternoon through late evening. High pressure off the California coast will spread slowly toward the southeast bringing warming to slightly above average for Wednesday through Friday. For the weekend into early next week, a trough of low pressure to the north will bring stronger onshore flow with a return to near average high temperatures. Patchy night and morning coastal low clouds and fog may return next weekend.

Southeast California Weather:

A weather disturbance will pass north of the area today helping pull moisture northward and supporting increased chances for thunderstorms. Much drier and tranquil warm weather is anticipated for the latter half of the week.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 21st: Don Pedro 41%; Exchequer 17%; Folsom Lake 40%; Lake Oroville 32%; Millerton Lake 46%; New Melones 24%; Pine Flat 11%; San Luis 19%; Lake Shasta 31%; Trinity Lake 30%; Pyramid Lake 94%; and Castaic Lake 44%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

- Cal OES continues to gather drought-related costs from state agencies and local governments.
